PAPYRUS

A collection of tropical-themed stationery items. It includes several cards and notebooks with various designs: one with a large green leaf border and a butterfly, another with a gold butterfly in the center, and others with dense green foliage and gold accents. There are also notebooks with a black and white geometric pattern and one with the word 'create' in gold script. A black pencil case with three gold butterflies is shown at the bottom right, along with three pens.

Sushi & Friends

Soy awesome! Quintessentially bird & Quill, this collection pairs a quirky artist style with a clever, authentic voice, and offbeat humor with a twist of the unexpected. Inspired by current big food trends—predominantly sushi but also other Asian foods such as pho, dim sum and boba—this range of fantastic notebooks, desk accessories, mugs, pouches and a tote also throws playful animals with attitude into the mix.

Girl Power

Inspired by current movements in feminism and girl empowerment, bird & Quill's Girl Power collection is vibrant, youthful, individualistic and fashion-forward with a slight edge. Utilizing a fresh artist approach and an eye-catching palette that is feminine but bold, themes explored include a hip female figure, on-trend fashion and smart hand-lettered phrases across a wide range of desk accessories, mugs, pouches and tote.

Cosmic Vibe

Our Cosmic Vibe collection explores the inspirational side of bird & Quill with mystical space designs and a more contemplative voice. Stunning skies with unique artistry are paired with phrases like "Day Dreams" on a daytime sky and "Night Ramblings" on a night sky. Notebooks and desk accessories featuring planets, stars and rockets add a playful twist and appeal to all ages and genders.

Tropical Luxe

Lush and sophisticated, the Tropical Luxe collection is a striking fusion of trends seen in fashion, home décor and print. Foliage in shades of green and golden bees are combined with bold, black-and-white patterning for a modern twist. Accents of gold foil and shimmering gems add a touch of luxurious style on beautifully crafted journals and an assortment of stunning desk accessories.

Wanderlust

Travel destinations across the country and around the world continue to grow in popularity across all generations, so we created this playful but sophisticated collection in celebration of wanderlust. Iconic international and U.S. landmarks are featured on a wonderful range of desk accessories, featuring hand-lettered phrases such as “Explore,” plus unique journals and writing instruments to record travels. A special nod is made to one of the most iconic U.S. cities, New York.

Faceted Garden

Inspired by the continuing popularity of succulents, facets and geometric patterns, we combined these trends to create the Faceted Garden collection, pairing a fresh artist hand and a modern palette for youthful style with a wide appeal. A gold diamond design appearing throughout on unique paper products and desk accessories adds a current, fashion-forward edge, while geometric patterns add a masculine twist.

Ranging in style from timeless to trendy, our beautifully designed journals, spiral notebooks and larger notebook sets are great for everyday use at work or school. Pocket notebook sets are the right size to slip into a purse, while longer notepads are meant for lists and reminders. All are made with quality papers, feature a variety of designed interior pages and are embellished with unique accents such as shiny foil and gilt edges.
